Option 2 - Storage Heaters - 3kw Fan assisted storage heater, these units consume 3kw of power whilst heating their internal heat storage bricks using a lot of energy to do so and are very expensive to do this particularly if you do not have an economy7 type electricity tariff. Once charged they give out 1100w of heat which is lower than any of the other options within these quotes. The units are much bulkier compared to your current heaters. This option does however come with wireless thermostatic controls.

Hrs/Qty	Service	Rate/Price	Sub Total
1	Storage Heaters 4 X Storage Heaters	£2,200.00	£2,200.00
1	Single phase consumer unit Supply and installation of a single phase consumer unit to allow for segregation of circuits to supply each heater separately. This consumer unit will be to BS7671:2018 as amended and will incorporate surge protection and residual current protection devices.	£260.00	£260.00
1	Labour Labour to install all heaters, cables for new circuits, consumer unit and peripherals. These will cost a little extra to install as due to the wright they require a 2 man team to install.	£1,250.00	£1,250.00
1	testing, certification and warranty as required by BS7671:2018 Included as part of our service	£0.00	£0.00
